

## IN THE CLAIM

Please cancel Claims 1 to 2, without prejudice or disclaimer of the subject matter thereof, and amend claim 3 as the following. The amendment of claim 3 is based the previous claim 3 and the Fig. 2 of the present invention is added. In fact, the claim 3 claims the feature in the Fig. 2 of the present invention. The relation of the new claims with respect to the previous claim 3 and Fig. 2 are shown in the following REMARK, Examiners can read the claims more easily from the REMARK.

## **LIST OF CLAIMS:**

Claims 1 to 2 (Cancelled)

Claim 3. A picture holder capable of holding pictures, posts, or photos comprising:

a stable supporting device including two downwardly and outwardly extended flaps, and an upper panel coupled between the upper portion of the flaps, to form from an inverted U shaped stable supporting structure; and

a loose-leaf binder device engaged onto the upper panel of the supporting device and not in contact with the two flaps, and the loose-leaf binder device being secured to the upper panel of the supporting device with screws fasteners; the loose binder device having a retaining strip which has a hollow space at a longitudinal direction; and at least one transversal slot; the loose-lead binder device further including at least one binder ring provided thereon; the binder ring passing through the transversal slot so as to be fixed to the retaining strip; the binder ring serving for detachable or changeably attaching pictures or posts or photos thereon.
